According to the above resolution the following modifications have been made:

1. the signature to the statement on page 14 is displayed also in the electronic form
2. comparison basis for the account on pp 16-17 is the balance sheet made as at September 30, 2010

Other parts of the document are unchanged.

Interim Report of EGIS Pharmaceuticals Public Limited Company

October 1, 2010 – March 31, 2011
First Six Months (H1)
(on the basis of
IFRS consolidated, non-audited balance sheet data)

EGIS PLC's financial year extends from October 1, 2010 to September 30, 2011. Accordingly, the period from October 1, 2010 to March 31, 2011 was the first half of the Company's 2010/2011 business year.

Information

As from the new business year, two modifications were introduced in the Company's accounts, statements:

1. Reporting Export Results in Euro

Since EGIS PLC's sales in Russia are invoiced in rouble instead of US dollar as from January 1, 2011, and, consequently, this causes a significant fall in USD value of exports, the export turnover of EGIS PLC and the EGIS Group is disclosed in euro commencing from the 2010/2011 business year. To assist the preparation of analyses, the Company informed all those concerned about the change in its announcement of February 1, 2011 disclosing the historical figures of the export sales revenue in euro.

2. Changing Classification of Financial Instruments

For the sake of better compliance with the International Financial Reporting Standards and for the sake of higher transparency, commencing with the current fiscal year EGIS PLC changes the classification and interim publishing of financial instruments in line with the structure of the annual report. The modifications do not affect the total sum of assets, equity, liabilities on the balance sheet, nor the results of the Company.

This information is repeatedly released as Appendix to our present report.

Summary

In the first six months of the 2010/2011 business year, the EGIS Group attained an even-tempered performance, generated growing sales revenue and improved profitability in comparison with H1 2009/2010.

In the second quarter, the Group achieved **consolidated sales revenue of HUF 31,574mn**. This represents a **10% higher** value y/y. Majority of key markets saw expansion. In addition to the 9% growth of HUF value in the strategic markets, following last year's decline, there has been a 14% turnover rise in other markets.

In Q2, the Hungarian drug market has expanded. Its regulation remained negative. Drug producers invariably keep covering significant part of the reimbursement. At the same time, rules of law in force enable medicine producers to recover up to 100% of their 2010 payments in 2011 for the benefit of R&D activities. As per the act modification passed by the Parliament in December 2010, recovering ('assignment') shall not debit the National Health Insurance Fund.

Among the strategic markets of the Company, HUF value of the EGIS Group's sales revenue moved up 5% in Hungary in Q2. The EUR value of consolidated sales revenue grew 21% in Russia and other CIS markets, and lessened 2% in Eastern Europe compared to Q2 2009/2010. In other regions, there was an aggregate 12% turnover expansion in EUR terms y/y.

Over the second quarter, consolidated gross profit of sales came to 57.9% of sales revenue, rising 3.7 percentage points versus the comparative quarter. The increase in quarterly gross profit was attributable partly to the development of exchange rates and partly to the advantageous sales structure.

Consolidated sales, general and administration costs rose 5% in y/y comparison. **Q2 consolidated operating profit** accounted for **HUF 5,957mn** due to the growing turnover and to the moderated costs, amounting to 18.9% of sales revenue and indicating a **48% growth** y/y.

Q2 consolidated profit from financial activities came to minus HUF 1,411mn predominantly owing to the revaluation loss at the end of the period. Consolidated net profit, as resultant of good operating profit and negative profit from financial activities, accounted for HUF 4,539mn, 4% below the comparative figure.

The first six months saw a **consolidated sales revenue of HUF 63,489mn** climbing **13%** y/y. In addition to the 10% growth of turnover in the strategic markets there has been a 40% rise in other markets.

H1 gross profit margin came to 56.2%, up 0.6 percentage point. Gross margin in H1 was affected by the favourable development of exchange rates, but also by the cost-efficiency measures.

Six-month growth of consolidated sales, general and administration costs was 8% compared to H1 last year. **H1 operating profit** accounted for **HUF 10,336mn**, exceeding H1 2009/2010 by **36%**.

As an aggregate result of the positive Q1 and negative Q2 profit from financial activities, the first six months shows in total minus HUF 930mn profit from financial activities.

Owing to the good business performance, despite the negative profit from financial activities, the EGIS Group generated **pretax profit of HUF 9,215mn in the first six months** which reflects a **4% rise** y/y.

According to the Company's assessment, H1 achievement can be deemed as favourable.

May we remind you herewith that, as from the 2009/2010 business year, the Company analyses primarily the consolidated statements. Nevertheless, the Appendix continues to disclose EGIS PLC's stand-alone financial statements in HUF and export sales in EUR.

Sales Revenue – Domestic

In the second quarter the EGIS Group had a consolidated sales revenue of **HUF 8,051mn**. This represents a **5% growth** y/y.

According to IMS (International Medical Statistics) data, the Hungarian drug market saw a 8.4% growth in value through the January - March 2011 quarter compared to Q2 2009/2010. The market share of EGIS PLC was 5.4% in value over this period. This value exceeds the comparative figure by 0.1 percentage point. The Company is ranking fifth among the largest suppliers in the domestic market.

Fierce price competition continued to prevail in the market of reimbursed products and especially, of generic drugs. As earlier, the National Health Insurance Fund effected quarterly adjustment of reimbursement to the falling prices and manufacturers could not choose but follow prices if they intended to ensure continued reimbursement. In order to maintain the reimbursement and market position of its products, EGIS PLC also followed the price trends in the market, and as from January 1, 2011 effected again price reduction of 0.1% on average.

In Q2, 12% payment obligation of drug producers, effective from January 15, 2007, in proportion to reimbursements allocated to their drugs, amounted to HUF 515mn in case of the Company. Further HUF 153mn as medrep fee, re-introduced as from February 15, 2009, debited the second quarter.

According to the law passed by the Parliament in June 2009, drug producers were in the position in 2010 to claim back as a function of their R&D spending as much as 20% of the payments resulted from their 12% extra taxes and from the registration fees on medical representatives, imposed in 2009. As a consequence of the cross-calendar fiscal year, financial transaction could be realised for the Company one year later, i.e. in 2011. Settlements related to 2009 took place in largest part in the second quarter.

In compliance with the rules of law, in 2011, this recovery may come to 100% of their 2010 payments provided that R&D expenses exceed 20% of reimbursement paid on their pharmaceuticals (proportionate to manufacturer's price). The upper limit is the amount of their R&D expenses. By virtue of the value of R&D expenses, EGIS PLC is entitled to exercise the entire recovery option. The possibility of financial settlement will be provided for the Company in 2012. The recoverable amount, calculated by the Company on basis of the R&D expenditure for the January – March 2011 period, is HUF 650mn which is included in the quarterly accounts.

On basis of the act modification, passed by the Parliament in December 2010, a continued recovery option will be ensured upon grounds of assignment, but the possibility to debit the National Health Insurance Fund has been excepted from the act. The Company is making all efforts to get the arrangement for the resource of recovery in 2011. As yet no new resource has been assigned.

In the recent period, several additional draft governmental provisions, aiming at the reduction of state subsidies on drugs, have come up which, in the future, may exercise, now by reasonable quantification non-predictable effect on the Company's financial performance. At the same time, only moderate influences are expected by the Company in 2010/2011.

Coverex products licensed from SERVIER and representing the Company's leading product line in Hungary, reached a turnover of HUF 1.8bn over the second quarter. In the same period, sales revenue of the whole assortment of products licensed from SERVIER (Coverex-AS 5 mg and 10 mg, Coverex-AS Komb and AS Komb Forte, Covercard, Adexor MR, Tenaxum, Apadex and Bioparox) totalled HUF 2.6bn. This turnover makes up 34% of EGIS PLC's total Q2 domestic drug sales.

In the first six months of the business year, the EGIS Group had a **consolidated domestic turnover of HUF 16,889mn**, a 7% higher value than the year before.

According to IMS data, the Hungarian drug market saw a 6.7% expansion through the six months from October 2010 - March 2011, while EGIS PLC's pharma turnover exceeded H1 2009/2010 by 8% in value. Thus, market share of EGIS PLC went up 0.1 percentage point y/y and came to 5.4% in the six months.

Driving factor of the growing sales was 7 new products launched in the market in 2009/2010 and 2 new products introduced up to this point in 2010/2011.

Sales Revenue – International

The dynamically developing export activity keeps being the core factor of the improving performance of the Group.

In the second quarter, the EGIS Group generated consolidated international sales revenue at a value of **EUR 85.951 thousand**. This shows a **9% increase** y/y. Exports to CIS markets (including Russia) reached the value of EUR 38.0mn, 21% more than a year ago. The EGIS Group had a turnover of EUR 33.2mn in Eastern Europe over the reported quarter. This represents a 2% increase on the preceding quarter and shows a 2% drop compared to Q2 2009/2010. In the rest of the world Q2 sales exceeded the comparative figure by 12%.

In the first six months of the business year **consolidated value** of the **EGIS Group's exports** reached **EUR 169,835 thousand**. The six-month value is **13% above** the comparative figure. Value of exports accounted for 73% of the consolidated sales revenue.

H1 exports to CIS markets (including Russia) achieved EUR 73.1mn, 15% more than a year ago. 32% of the consolidated turnover derived from this region.

In the first six months, the EGIS Group had a turnover of EUR 65.9mn in Eastern Europe, 3% more than a year ago. Eastern European sales represented 28% of the EGIS Group's turnover.

There was a rapid boom also in the rest of the world where H1 sales exceeded the comparative figure by 38%. Sales in the rest of the world came to 13% of the consolidated turnover.

Russia

In the second quarter, in Russia, which is reckoned to be the largest export market of the Group, EUR 29.3mn sales were realised, 29% over the comparative figure. As from January 1, 2011, adhering to the regulatory changes in the Russian drug market, the Company is invoicing in roubles to its customers. Switch-over to rouble took place without a hitch, continuity of turnover and payment is ensured also in the new accounting order.

H1 turnover achieved **EUR 54.0mn**. This reflects a **20% higher value** in y/y comparison. The elimination of one product owing to re-registration reduced the comparative turnover, as mentioned in our relative report. Re-appearance of the turnover of this product boosted the sales in the latest period relative to the year-earlier base. Aggregate sales revenue of other products within the portfolio moved up 13% in the first half of the business year.

Ukraine, other CIS markets

In other markets of the CIS region, sales opportunities remain within the confines of the customers' purchasing power. Though solvency is calling for great efforts to achieve, the market has stabilized and the situation is more advantageous than a year ago.

Q2 sales in Ukraine accounted for EUR 2.4mn, lagging behind the comparative value by 28%. In total, the Group realised sales at a value of EUR 6.3mn in other CIS markets (prominent markets: Kazakhstan and Belarus), representing a 16% boost compared to Q2 2009/2010.

H1 exports to **Ukraine** came to EUR 6.8mn. Sales revenue being 1% over the figure of the preceding six months, lagged behind H1 2009/2010 by 12%. With reference to the first half of the 2009/2010, it is to be emphasised that an outstanding turnover was realised in Ukraine, with a 59% increase on the comparative half of the preceding year. In **other CIS markets** the Company achieved sales at a value of EUR 12.3mn which shows a 18% growth y/y.

Also in these markets, the Company, in accord with its partners, strives to retain commercial conditions which promote the uninterrupted development and further considerable turnover expansion.

Eastern Europe

In the second quarter, EGIS Group's turnover totalled EUR 33.2mn in the Eastern European countries, 2% below the comparative figure. Q2 turnover in the largest market within this region, in Poland came to EUR 16.4mn, the same as a year ago. In the Czech Republic, sales were realised at a value of EUR 4.5mn, 3% less than in the comparative quarter. In Slovakia, turnover totalled EUR 3.3mn, indicating a 18% fall y/y. In Romania sales came to EUR 4.2mn with a 2% increase on Q2 2009/2010. The EGIS Group had a turnover of EUR 4.7mn in other markets of Eastern Europe, 1% more than a year ago.

In the first half of the business year, sales were realised in this region at a value of EUR 65.9mn witnessing a 3% rise compared to the year-earlier basis. H1 exports to **Poland** amounted to EUR 33.1mn with a 3% increase on H1 2009/2010. In the **Czech Republic**, turnover of EUR 8.5mn was performed, 9% more than a year ago. In **Slovakia**, the EGIS Group achieved EUR 7.4mn sales revenue in the six-month period, lagging behind the year-earlier basis by 5%. In **Romania**, consolidated sales came to EUR 8.0mn with a 6% increase on H1 2009/2010. The aggregate turnover in **other markets of Eastern Europe** reached EUR 9.0mn reflecting almost the same as a year ago.

Rest of the World

In the second quarter, the export of finished products to the rest of the world came to EUR 5.0mn with a 17% growth. The export of drug substances and other products totalled EUR 9.8mn going up 10% y/y.

In the first half of the business year, **export of finished products to the rest of the world** accounted for EUR 10.2mn climbing 23%. Majority of turnover expansion is attributable to the anew upswinging production-related cooperations. Sales of EGIS PLC's own finished products showed a rising character too.

In H1, **export of drug substances and other products** totalled EUR 20.6mn with a 46% growth y/y. Rise in sales resulted primarily from the again recovering sales of drug substances sold to SERVIER.

Aggregated six-month exports effected in the rest of the world accounted for 13% of the EGIS Group's consolidated revenues. This is 2.5 percentage points over the comparative period. Deliveries within the confines of EGIS and SERVIER dealings represented the core of turnover.

H1 consolidated turnover achieved by the EGIS Group in the key export markets is shown hereunder:

<i>(EUR thousand)</i>	2010/2011	2009/2010	Change	
Export markets	H1	H1	EUR thousand	%
Russia	53 977	45 159	8 818	20
Ukraine	6 840	7 756	-916	-12
Other CIS countries	12 321	10 430	1 891	18
Russia and other CIS countries in total	73 138	63 345	9 793	15
Poland	33 072	32 007	1 065	3
Czech Republic	8 484	7 772	712	9
Slovakia	7 386	7 765	-379	-5
Romania	7 950	7 509	441	6
Other Eastern European countries	9 022	9 080	-58	-1
Eastern Europe in total	65 914	64 133	1 781	3
Finished pharmaceuticals to other countries	10 202	8 295	1 907	23
Active ingredients and others	20 581	14 085	6 496	46
Total export	169 835	149 858	19 977	13

The average exchange rate in the second quarter was HUF 273.67/EUR, HUF 5.68 or 2% higher y/y. Thus, Q2 exports were performed at a value of HUF 23,523mn which exceeds the comparative figure by 12%.

Total H1 exports achieved **HUF 46,600mn, with a 15% boost** y/y. Advantageous change in the exchange rates caused the aggregate revaluation of the EGIS Group's exports by some HUF1.9bn in comparison with H1 2009/2010, out of which HUF 0.4bn are generated in the second quarter.

Gross Profit

In the second quarter, **consolidated costs of sales** represented 42.1% of sales revenue. This is 3.7 percentage points lower than a year ago. The improvement was caused by the development of exchange rates and especially by the advantageous change in the product-mix of sales.

Thus, gross profit of the EGIS Group reached HUF 18,294mn in the second quarter, 18% over the year-earlier base.

In the first half of the business year, costs of sales represented 43.8% of sales revenue. This is 0.6 percentage point lower than in H1 2009/2010. The drop in the cost-intensiveness was promoted by the advantageous shaping of exchange rates and by the effectiveness of cost-efficiency measures.

Dynamic boost of sales revenue and drop of cost rate contributed jointly to the upward movement of **gross profit**. Gross profit of H1 reached **HUF 35,700mn, 14% above** the comparative period.

Operating Profit

In the second quarter, sales, general and administration expenses of the EGIS Group exceeded the comparative figure by 5%. Commercial costs (general selling costs) grew 4%, research and development expenses increased 9%, administrative costs were 7% higher than a year ago.

Q2 consolidated balance of other operating expenses and income came to minus HUF 269mn, representing a deterioration of HUF 164mn y/y. In Q2, balance of items related to state-run payment obligations, chargeable to the pharmaceutical industry, amounted to minus HUF 100mn, HUF 433mn can be identified as local taxes, other accounts showed HUF 264mn on the income side.

Thus, **Q2 consolidated operating profit** reached **HUF 5,957mn**. This value is 36% higher than in the previous quarter, and **48% more** than y/y.

In the first half of the business year, sales, general and administration expenses showed an increase of 8% y/y.

Commercial costs were 8% higher than a year ago. Increase in costs was justified by the rise in turnover realised in the strategic markets of the Group, by high marketing expenses related to the introduction of new products.

In H1, **research and development expenses** increased 10%. The EGIS Group continues to focus on the development of new products. Rise in R&D costs is due to the expenditures of experiments forming part of the developments as well as to the costs of registration required for launching the new products.

In H1, **administrative costs** grew 6%.

H1 balance of **other operating expenses and income** came to minus HUF 1,004mn, representing an improvement of HUF 54mn y/y.

In H1 of the 2010/2011 business year, the EGIS Group realised an **operating profit of HUF 10,336mn, 36% more** y/y. Operating profit represented **16.3% of H1 sales revenue**, this is 2.8 percentage points better than the comparative figure.

Dynamic increase in operating profit was generated by export-driven expansion of sale, by strict control of the operating costs and also by the advantageous development of exchange rates.

Profit before Taxation

In Q2, EGIS Group's consolidated profit resulting from financial activities and share of results of associated companies showed, in total, a profit of minus HUF 1,411mn. This means a relapsing of HUF 2,595mn y/y. The profit was decisively affected by the exchange rates, being important for the EGIS Group, weakening considerably compared to HUF at the end of the quarter.

Among the main items of the second quarter, net interest income accounted for HUF 333mn, profit on derivative transactions amounted to HUF 225mn, impact of exchange rates were, in total, minus HUF 1,809mn (out of which HUF 1,750mn were not realised), while other accounts showed minus HUF 160mn.

As a result of all these factors, **Q2 consolidated pretax profit** amounted to **HUF 4,546mn**, 13% lower in y/y comparison due to the unfavourable financial profit in spite of the good operating profit.

In the first half of the business year, **consolidated profit resulting from financial activities and share of results of associated companies** showed, in total, a profit of minus HUF 930mn. This figure is worse than a year ago with a difference of HUF 2,898mn. This is mainly caused by forex change shaping unfavourably for the Group at the end of the period as mentioned above.

In the first half of the 2010/2011 business year, the EGIS Group realized a **consolidated pre-tax profit of HUF 9,406mn**, which nearly corresponds to the figure of the first half of the previous business year.

Net Profit

As announced earlier, EGIS PLC had been qualified for corporate income tax allowance on the basis of considerable investments in production facilities realized between 2005 and 2010. Up to the level of the allowance value, the Company enjoys a tax allowance of 80% out of the 19% corporate income tax of general standard.

Other companies of the EGIS Group pay corporate income tax according to the general regulations being in force in the individual countries.

Q2 consolidated net profit came to HUF 4,539mn, 4% lower than a year ago.

In the first half of the business year, the EGIS Group reached a **consolidated net profit of HUF 9,215mn**, 16% higher than the figure of the previous six months and **exceeding** the value of the comparative half year **by 4%**.

Assets vs. Equity & Liabilities

Consolidated total sum of **assets vs. equity & liabilities** on the balance sheet of the EGIS Group amounted to HUF 178,079mn at the end of the period, representing a 10% rise y/y.

During the past 12 months, value of **intangible assets** decreased 1%. Value of **property, plant and equipment** rose 10%. More specifically, value of land and buildings increased 10%, value of machinery and equipment grew 14% while value of item 'Construction in progress' was 4% higher. This is related to the investments in production facilities already initiated but to be capitalized later when put into operation and is related to the R&D investments.

Value of invested financial assets has decreased 10% over the past year.

On March 31, 2011, value of **inventories** of the Group was 3% lower than a year ago. This decrease is due to the measures taken by the Company and due to the favourable development of sale. Value of **trade receivables** is 3% lower than the year before, and it is 12% less than the figure at the beginning of the business year.

At the end of the reported period, **cash and cash equivalents and other financial assets** of the EGIS Group in total amounted to HUF 31,428mn, 34% more than the year before.

Equity of the Group at the end of the highlighted period was HUF 157,157mn, increasing 11% during one year. Equity per share grew to HUF 20,185.

Liabilities continued to represent a minor ratio, 12% on the account of equity & liabilities of the Group at the end of the reported period. Value of **non-current liabilities** increased 3% over the past year while value of **current liabilities** did not change considerably. More specifically, value of **trade payables** increased 7%.

Other Information

Headcount, Capital Expenditure

The total number of **full-time employees** of the EGIS Group was 3,818 as at March 31, 2011, which nearly corresponds to the figure at the end of the previous business year. Out of the consolidated headcount, 2,604 people worked in Hungary at EGIS PLC, 40 people at the Hungarian subsidiaries, 752 in the foreign commercial offices and 422 at the foreign subsidiaries of the Group.

The number of full-time employees of EGIS PLC (stand-alone) on labour law basis was 2,606 at the end of the quarter.

In Q2 2010/2011, **capital expenditure** of the EGIS Group totalled HUF 2,312mn, 10% less than the year before.

In total, H1 capital expenditure amounted to HUF 4,750mn, 3% more than a year ago. Within this, capex of EGIS PLC came to HUF 4,348mn while capex of subsidiaries totalled HUF 402mn.

Segment Information

Segment information about EGIS Group's activity is contained in the data sheets enclosed. Decisive operation segment of the Group is '**production and sale of pharmaceutical products**' which is identical with EGIS PLC's activity.

Shares, Ownership Structure

The Company's **share capital** as at March 31, 2011 invariably equalled HUF 7,785,715 thousand, the same as a year ago. Share capital consists of 7,785,715 issued and fully paid dematerialized shares of registered value of HUF 1 thousand per share, carrying equal ranking. The shares are listed on the Budapest Stock Exchange in category 'A'.

There was no significant change in the **ownership structure** of the Company. The French company Arts et Techniques du Progrès (Servier) continues to own 50.91% of shares while the remaining stock is in the possession of other shareholders. One further investor, Franklin Templeton Investment Fund has higher than 5% ownership of shares.

Contracts, Obligations

In order to secure export revenues, EGIS PLC regularly takes **forex hedge positions**. The result of the closed forex hedge contracts is included in the accounts of this report. At the end of the reported period, the Company had no open positions.

The January - March 2011 rate of the **payment obligation** stipulated in the act on pharmaceutical market is settled in the accounts at a value of HUF 668mn as expenditure. Out of this sum, the January value was calculated on actual data while the amount for February-March reflects the estimation of the Company. The Company fulfilled the payment obligations stipulated in the act on pharmaceutical market according to their due-date, within the specified time, reduced by recovering possibility, which was enforced in the second quarter of the business year, up to 20% of the 2009 payments. On the basis of a calculation, in line with the R&D expenditures, the Company accounted as deductible HUF 650mn from its January-March 2011 payments. In total, the Company accounted as deductible HUF 327mn in 2008/2009, HUF 1,883mn in 2009/2010, HUF 1,244mn in H1 2010/2011. By virtue of this, following the enforcement of the recoveries for the 2009 calendar year, at the end of the reported period, the Company records a sum of HUF 3,017mn in total as future reclaims, out of which HUF 2,367mn in 2012 and HUF 650mn in 2013 can financially be utilized.

In February 2010, EGIS PLC signed an **agreement with Celltrion**/South Korea for distribution of eight biosimilar products in the strategic markets of EGIS PLC. Under the general contract, also the product supply agreements for the first two products have been signed. In Q2, no further advance payment was made by EGIS PLC. Value of advance payments effected in H1 amounted to USD 7.6mn which will be deducted on delivery of the products.

The Company had no **other significant outstanding liabilities** at the end of the period.

No **bonds** were issued by the Company.

Others

In the highlighted quarter, there was a single change **in the executive management of the Company**: with effect from February 1, 2011, Mr POROSZLAI Csaba has been the Chief Financial Officer of the Company.

The Company holds no **treasury shares**.

Information

Reporting EGIS PLC's export results in euro

We are informing all those concerned that, since EGIS PLC's sales in Russia are invoiced in rouble instead of US dollar as from January 1, 2011, and, consequently, this causes a significant fall in USD value of exports, the statements of EGIS PLC's export turnover are disclosed in euro commencing from the 2010/2011 business year. To assist the preparation of analyses, we are now disclosing the historical figures of the consolidated export sales revenue of the EGIS Group and EGIS PLC's export sales revenue in euro per key market in quarterly breakdown and also as aggregates for the 2008/2009 and 2009/2010 business years.

Information

For the sake of better compliance with the specifications of IFRS 7 and for the sake of higher transparency, commencing with the current fiscal year EGIS PLC changes the classification and interim disclosure of financial instruments, in accord with the structure of the annual balance sheet.

Other financial instruments will be presented as new separate items both on the 'assets' side and on the 'liabilities' side of the balance sheet with the following contents:

New denomination	Contents	
	Stand-alone	Consolidated
Other non-current financial assets	Investments	Available-for-sale financial assets
	Loans given	Loans given
Other current financial assets	Held-to-maturity investments	Held-to-maturity investments
	Held-for-trading investments	Held-for-trading investments
	Derivative transactions	Derivative transactions
Other non-current financial liabilities	n/a	Loans and borrowings
Other current financial liabilities	n/a	Short term part of long term loans
	n/a	Bank loans and overdrafts
	Derivative transactions	Derivative transactions

Derivative transactions had earlier been presented among other receivables or among other current liabilities.
